MUNITIONS STORAGE SITE SOUTHWEST OF SHANG-JAO, CHINA

COORDS: 28-22N 117-54E
NPIC TARGET NO: None
COMOR NO: None
BE NO: None

A munitions storage site is located 5.5 nm SW of the town of Shang-jao, China (Figure 1). The site measures approximately 4,000 by 2,000 feet and is situated in a valley directly south of a reservoir. No visible changes have been made to the storage facility since [REDACTED]

[REDACTED] The Shang-jao Army Barracks and Headquarters 35th Division (BE [REDACTED]) is 6.5 nm to the north. 1/

Storage Buildings. There are 26 storage buildings of three different sizes at the site (Figures 2 and 3). All have end walls, resembling walls for blast protection, that extend above the roof of the building. None of the buildings are revetted; however, they are situated in terrain that provides natural protection. Adjacent service aprons permit easy

access to the entrances which are situated on one side of the long axis of the buildings. The small size buildings have one entrance; the two larger sizes have two. All entrances are covered by a small roof overhang. One building has two low, gable-type roof ventilators (Figure 4).

Security. The site is single fenced. A small guardhouse is at the single entrance. Patrol trails and lookout points around the periphery of the site indicate that the storage area is kept under surveillance.

Housing and Administration. Groups of three adjacent buildings (items 4 and 5) situated at each end of the site probably serve for housing, support, and administration. A probable vehicle shed (item 6) and several small support/administration buildings are near the entrance to the site.
